

By the end of the lesson, the student will be able to:
 * give ideas on whether yawning is contagious or not,
 support the answer; tell what the passage is all about.

Passage

Harry works at a restaurant in the daytime. In the evening, he goes to an adult school to learn the English language. He has a class in reading and wants to practice it, but he could not for he is tired. Ali who sits behind him also yawns. Eventually, it affected everybody in the room and all starts yawning unceasingly. Yawning is contagious!
