

The world is changing and it makes life harder to live, especially in the third world countries. Inventions and innovations pushes the advances of society and alter the way people live. Life styles, values, attitudes and beliefs also changes, and the disparity between the rich and poor nation grows wider. No one really knows what will happen tomorrow.

The future will always be uncertain, but on a positive note, this is what makes life exciting. The people's action make ones life better, however, it does not bring assurance of success as opportunity and risk befuddles the mind. Thus, people need to make adjustments and prudent decisions.

Change is inevitable and this is the challenge of the society today, how to adapt and make the new environment advantageous to all mankind.
